What this standard covers

This standard specifies the method for the determination of methyl methacrylate polymer casting type and number of dilute solution viscosity of the copolymer. This standard applies to casting, non-molded extruded methyl methacrylate (MMA) homopolymers, copolymers, and mixtures thereof.

Document data

International classification (ICS): 83.040.01.

Chinese classification (CCS): G31.

Estimated length of the Chinese original: 7,778 words.
