### What this standard covers

This standard specifies the requirements D 202 Type II macroporous strong base anion exchange resin, styrene, test methods, inspection rules, marking labels and packaging. This standard applies to dimethyl amine group is mainly active group D 202 macroporous strong base anion exchange resin styrene II.

### Document data

International classification (ICS): 83.04.

Chinese classification (CCS): G32.

Estimated length of the Chinese original: 6,649 words.
