What this standard covers

This standard specifies the naming PTFE material. This standard applies to suspension polymerization method or a dispersion of polytetrafluoroethylene resin production, the comonomer content comprises less than 1% of a copolymer of polytetrafluoroethylene and an additive material, but excluding polytetrafluoroethylene dispersion.

Document data

International classification (ICS): 83.080.20.

Chinese classification (CCS): G31.

Estimated length of the Chinese original: 6,681 words.

Supersedes the earlier edition GB 5477-1985.
