What this standard covers

This standard specifies the technical requirements for polytetrafluoroethylene resin for molding, describes the corresponding sampling, sample preparation, test methods, specifies marking, packaging, transportation and storage, etc., and gives terms, definitions and product classifications for technical regulations. This document applies to polytetrafluoroethylene resin for molding produced by suspension polymerization.

Document data

International classification (ICS): 83.080.20.

Chinese classification (CCS): G32.

Estimated length of the Chinese original: 12,166 words.
