What this standard covers

This standard specifies the determination of unplasticized cellulose acetate acid hydrolysis value in two ways. This standard applies to no plasticized cellulose acetate, and contain no additives, other materials, fillers, dyes or affect the test. If these substances must be mutually agreed upon method of separating them.

Document data

International classification (ICS): 83.080.20.

Chinese classification (CCS): G31.

Estimated length of the Chinese original: 5,582 words.

Adopted international standard: ISO 1597-1994, IDT.

Supersedes the earlier edition HG/T 3021-1986.
