What this standard covers

This standard specifies the use of static or dynamic adsorption assay method for the determination of the specific surface area of ??hydrated silica precipitation method. This standard applies to all types of precipitation hydrated silica surface area determination.

Document data

International classification (ICS): 71.100.40.

Chinese classification (CCS): G49.

Estimated length of the Chinese original: 15,187 words.

Adopted international standard: ISO 4652-1-1994, NEQ.

Supersedes the earlier edition HG/T 3073-1989.
