What this standard covers

This standard applies to the determination of nominal compressive properties of Pall rings 50mm diameter polypropylene. Other sizes can choose the appropriate test speed, measured by reference to the standard.

Document data

International classification (ICS): 71.12.

Chinese classification (CCS): G91.

Estimated length of the Chinese original: 3,396 words.

Supersedes the earlier edition ZB G91005-1987.
