1 Scope

1 Scope

This standard specifies the classification, requirements, test methods, inspection rules, signs, labels and accompanying documents, packaging, transportation and storage of industrial sodium chlorite. This standard applies to industrial sodium chlorite. Note: This product is mainly used as the main raw material for the production of chlorine dioxide and as a discharge agent for indanthrene dyeing. It can also be used for bleaching pulp, paper, various fibers, etc., depilating leather and surface treatment of certain metals.
