What this standard covers

This standard specifies the method for the determination of surfactants test water or an aqueous solution conductivity. This standard applies to the determination of test water or an aqueous solution conductivity.

Document data

International classification (ICS): 71.040.40.

Chinese classification (CCS): G72.

Estimated length of the Chinese original: 5,526 words.

Adopted international standard: ISO 2456-1986, NEQ.

Supersedes the earlier edition HG/T 3506-1989.
