What this standard covers

This standard specifies the classification, requirements, test methods, inspection rules, labels and accompanying documents, packaging, transportation and storage of industrial sodium borohydride. This standard applies to industrial sodium borohydride. Note: This product is mainly used as a reducing agent for the manufacture of potassium borohydride and for the production of pharmaceutical intermediates, pesticides and fragrances, papermaking and other fine chemical products. It can also be used for papermaking bleaching, mercury-containing wastewater treatment, raw materials and valuable hydrogen storage materials. Metal recycling, etc.

Document data

International classification (ICS): 71.060.50-.

Chinese classification (CCS): G12.

Estimated length of the Chinese original: 13,145 words.

Supersedes the earlier edition HG/T 3585-2009.
