1 Scope

1 Scope

This standard specifies the by-product sodium chloride in the production process of glyphosate (including glyphosate), and specifies the requirements, test methods, inspection rules and signs, packaging, storage and transportation of sodium chloride. This standard applies to sodium chloride produced by membrane treatment or oxidation, concentration, crystallization, washing and other processes of glyphosate (containing glyphosate) mother liquor. The products are only used for industrial purposes such as cement grinding aids, printing and dyeing aids, soda ash, chlor-alkali, etc., and shall not be directly or indirectly used as edible salt, and shall not be directly used in food, feed, aquatic products and other fields.
