1 Scope

1 Scope

This standard specifies the requirements, test methods, inspection rules and marking, packaging, storage and transportation of glyphosate by-product crude sodium pyrophosphate. This standard is applicable to the crude sodium pyrophosphate obtained by high temperature directional transformation of glyphosate mother liquor. The products are mainly used for industrial purposes such as industrial phosphates, ceramic additives, coal-water slurry additives, ore separation agents, oil well additives, etc., and shall not be directly or indirectly used in food, feed and other fields.
