1 Scope

1 Scope

This standard specifies the requirements, test methods, inspection rules and marking, packaging, storage and transportation of glyphosate by-product disodium hydrogen phosphate. This standard applies to disodium hydrogen phosphate produced by wet oxidation, concentration, crystallization, washing and other processes of glyphosate mother liquor. The products are mainly used as raw materials for industrial phosphate series products, and shall not be directly or indirectly used in food, feed and other fields.
