What this standard covers

This standard specifies the terms and definitions, models, structures and basic parameters, requirements, factory inspection, acceptance, labeling, factory documents and packaging of volatile organic compound cyclone adsorption-condensation recovery devices. This standard applies to devices that separate and collect volatile organic compounds at room temperature and perform cyclone adsorption-condensation recovery treatment on them.

Document data

International classification (ICS): 71.120; 75.180.20.

Chinese classification (CCS): G92.

Estimated length of the Chinese original: 13,146 words.
