1 Scope

1 Scope

This standard specifies the general principles, evaluation indicators and requirements, evaluation procedures, and evaluation reports for green factory evaluation in the waste electronic and electrical chemicals treatment and disposal industry. This standard is applicable to the evaluation of green factories in the waste electronic and electrical chemicals treatment and disposal industry. Including the treatment and disposal of surface treatment sludge, waste etching solutions, waste organic solvents, waste plating solutions (water), and waste circuit boards generated during the electronic and electrical production process and scrapping process. This standard does not apply to the green factory evaluation in the treatment and disposal industry of waste electronic and electrical chemicals containing radioactive substances.
