What this standard covers

This standard specifies the general provisions, technical requirements, test methods, inspection rules, marking, packaging, transportation, storage and accompanying documents of butyltin triisooctanoate catalysts for polyester resin production. This standard is applicable to butyltin triisooctanoate catalysts for polyester resin production using monobutyltin oxide and isooctanoic acid as raw materials. Butyltin triisooctanoate catalysts produced by other processes can also refer to this standard.

Document data

International classification (ICS): 71.100.99.

Chinese classification (CCS): G75.

Estimated length of the Chinese original: 8,870 words.
