What this standard covers

This standard specifies the terms and definitions, technical requirements, statistical scope and calculation methods, energy-saving management and measures for the energy consumption limit per unit product of aluminum fluoride. This standard applies to the calculation, control and assessment of the energy consumption per unit product of aluminum fluoride in enterprises that produce aluminum fluoride by reacting hydrogen fluoride or fluorosilicic acid with aluminum hydroxide.

Document data

International classification (ICS): 27.010.

Chinese classification (CCS): F01.

Estimated length of the Chinese original: 7,758 words.
