HG

**CHEMICAL INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

HG/T 6390-2025

**Test method for determining model microorganism retention of
porous separation membrane
(English Translation)**

Issued on: August 19, 2025

Implemented on: March 1, 2026

Issued by: Ministry of Industry and Information Technology

What this standard covers

This standard specifies the principles, reagents or materials, instruments, equipment, test procedures, data processing, and test reports for testing the retention performance of porous separation membranes on model microorganisms. This standard applies to the retention performance testing of model viruses using hollow fiber membranes or flat sheet membranes. Other types of membranes can refer to this standard.

Document data

International classification (ICS): 19.020, 23.100.60.

Chinese classification (CCS): J77.

Estimated length of the Chinese original: 13,118 words.
