What this standard covers

This standard specifies water-based polyvinylidene chloride (PVDC) resin coatings. Product Classification, Requirements, Test Methods, Inspection Rules, Marking, Packaging, and Storage: This standard applies to coatings that use water as the main dispersion medium and polyvinylidene chloride resin as the main film-forming substance. These products are primarily used for the decoration and protection of steel and concrete structures.

Document data

International classification (ICS): 87.040.

Chinese classification (CCS): G51.

Estimated length of the Chinese original: 13,154 words.
