HG

**CHEMICAL INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

HG/T 6459-2025

**Reaction performance test method for selective catalytic
reduction (SCR) denitration catalysts in cement production
(English Translation)**

Issued on: December 17, 2025

Implemented on: July 1, 2026

Issued by: Ministry of Industry and Information Technology

What this standard covers

This standard specifies the test methods for the reaction performance of selective catalytic reduction (SCR) denitrification catalysts used in cement plants. This document applies to the testing of denitrification efficiency, ammonia slip, activity, pressure drop, and sulfur dioxide/sulfur trioxide conversion rate of honeycomb catalysts and flat-plate catalysts (including fresh catalysts, used catalysts, and regenerated catalysts) used for flue gas denitrification in cement plants.

Document data

International classification (ICS): 71.100.99.

Chinese classification (CCS): G63.

Estimated length of the Chinese original: 8,899 words.
