What this standard covers

This standard specifies the gas chromatography method for the determination of 9 halogenated acetic acid compounds in the waste gas of organized emissions from stationary pollution sources. This standard is applicable to the determination of 9 halogenated acetic acid compounds such as monochloroacetic acid (chloroacetic acid), monobromoacetic acid, dichloroacetic acid, trichloroacetic acid, monobromomonochloroacetic acid, monobromodichloroacetic acid, dibromoacetic acid, monochlorodibromoacetic acid and tribromoacetic acid in the waste gas of organized emissions from stationary pollution sources.
