What this standard covers

This standard specifies the working procedures, assessment contents, evaluation methods and technical requirements for the exposure assessment of environmental pollutants. This standard is applicable to the exposure assessment of non-occupational groups of pollutants (only chemical pollutants) produced and released in environmental media (air, water, soil) during the activities of enterprises, institutions and other production operators.

Document data

International classification (ICS): 13.020.

Chinese classification (CCS): Z10.

Estimated length of the Chinese original: 11,179 words.
