1 Foreword

HY/T 0288-2020 was issued by Ministry of Natural Resources of the People's Republic of China on 28 June 2020 and has been in force since 1 October 2020.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 20 pages in English translation.

2 Scope Preview

This standard stipulates the principles, procedures and methods of my country's sea area price assessment. This standard is applicable to the price assessment of sea areas within the scope of our domestic waters and territorial waters, water bodies, seabeds and subsoil.

HY/T 0288-2020 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1992 to 2025.

3 About this standard

Issued by: Ministry of Natural Resources of the People's Republic of China

English translation: about 20 pages

Chinese original: about 23,214 characters
