1 Foreword

HY/T 0310-2021 was issued by Ministry of Natural Resources of the People's Republic of China on 1 April 2021 and has been in force since 1 June 2021.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This document specifies the coding principles and rules for the codes of China's marine buoy observation stations (points) (hereinafter referred to as buoy stations). This document is applicable to the management of buoy stations in the marine field and the identification, recording, transmission, processing, storage, exchange and application of data.

HY/T 0310-2021 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1992 to 2025.
