**INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

HY/T 0318-2021

**Specifications for sea area use acceptance of reclamation
projects surveys
(English Translation)**

Issued on: July 2, 2021

Implemented on: November 1, 2021

**Issued by: Ministry of Natural Resources of the People's Republic of
China**

Table of Contents

Foreword	
1 Scope	
2 Normative references	
3 Terms and definitions	
4 General requirements	
4.1 Work content	
4.2 Surveying and Mapping Benchmark	
4.3 Measurement accuracy	
4.4 Measurement results	
5 Measurement implementation	
5.1 Measurement preparation	
5.2 Definition of the actual sea-use scope of reclamation projects	
5.3 Control measurement	
5.4 Boundary Site Survey	
5.5 Topographic survey	
6 Sorting out and analysis of measurement data	
6.1 Analysis of actual and approved land reclamation	
6.2 Calculation and analysis of reclamation area	
6.3 Area calculation of other sea-use units	
6.4 Drawing	
7 Report preparation	
8 Quality inspection	
8.1 Basic regulations	
8.2 Inspection method	
8.3 Check content	
Appendix A (Normative) Site Record Form 6 of Acceptance Use of Reclamation Completed Sea Area	
Appendix B (Normative) Comparative Analysis of Reclamation (Schematic)	
Appendix C (Normative) Requirements for the Format of the Acceptance Measurement Report for the Use of the Reclamation Project in the Completed Sea Area	
Appendix D (Normative) Outline of Compiling Survey Report for the Acceptance of Sea Area Use of the Reclamation Project	
Reference	

Foreword

This document is in accordance with the provisions of GB/T 1.1-2020 "Guidelines for Standardization Work Part 1: Structure and Drafting Rules of Standardization Documents" Drafting.

1 Scope

This document specifies the content, methods, technical requirements, and inspection and acceptance of the sea area used for reclamation projects.

This document is applicable to land reclamation projects in China's domestic waters and territorial waters, and construction projects that contain sea reclamation types.

Receiving measurement work.

2 Normative references

The content of the following documents constitutes an indispensable clause of this document through normative references in the text. Among them, dated quotations Only the version corresponding to the date is applicable to this document; for undated reference documents, the latest version (including all amendments) is applicable to this document.

3 Terms and definitions

The following terms and definitions apply to this document.

Seafilingproject

Embankment to enclose the sea area or impervious construction method to fill the land, and form an effective shoreline sea project.

Reclamation project is completed seafiling project is completed the reclamation project has

been completed, and the completion drawing of the reclamation project has been issued.

Seaareauseacceptance After the completion of the reclamation project, a comprehensive inspection of the actual land and area of the sea area use right holder, and the implementation of sea area use management requirements, etc.

acceptance.
