8.3 Quality Control of Observation Data of Volunteer Ships
8.4 Quality Control of Observation Delay Data of HF Ground Wave Radar
8.5 Quality control of standard ocean cross-section observation data
9 Judging the annual water quality level of the beach
9.1 File Naming Rules
9.2 File record format and description

1 Foreword

HY/T 0341-2022 was issued by Ministry of Natural Resources of the People's Republic of China on 26 September 2022.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 12 pages in English translation.

2 Scope Preview

HY/T 0341-2022 carries no ICS number and no Chinese Standard Classification code.

This catalogue holds 378 other HY/T standards.

Of the 318 HY/T standards that do carry an ICS number, 288 (91%) fall under ICS 07, in the field of natural and applied sciences.

3 About this standard

Issued by: Ministry of Natural Resources of the People's Republic of China

English translation: about 12 pages

Chinese original: about 18,154 characters

4 Classification and status

Prefix HY/T: recommended standard.
