1 Foreword

HY/T 0357-2023 was issued by Ministry of Natural Resources of the People's Republic of China on 11 July 2023 and has been in force since 1 September 2023.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This document stipulates the demonstration content, working procedures, technical methods and requirements for the site selection of the planned deployment station 1) of anchorage-type marine data buoys. 1) The scheduled deployment site means pre-setting the approximate location of the deployment sea area based on the buoy observation requirements and sea area environmental conditions. This document is applicable to the site selection of anchorage-type ocean data buoys. The location selection of special-purpose buoys can be implemented by reference.

HY/T 0357-2023 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1992 to 2025.
