1 Foreword

HY/T 0358-2023 was issued by Ministry of Natural Resources of the People's Republic of China on 11 July 2023 and has been in force since 1 September 2023.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 21 pages in English translation.

2 Scope Preview

This document establishes the operation and management, operating procedures, calibration and maintenance, quality control, and monitoring data of the ocean station water quality online observation system. Operating procedures for recording and archiving, etc. This document is applicable to the operation and management of the water quality online observation system of my country's offshore ocean stations.

HY/T 0358-2023 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1992 to 2025.

3 About this standard

Issued by: Ministry of Natural Resources of the People's Republic of China

English translation: about 21 pages

Chinese original: about 26,224 characters

4 Related standards

Standards on related subjects:

GB/T 33673-2017 - Grade of horizontal visibility

DZ/T 0175-2014 - Specifications for Geological Mapping of Coal (1:50000 1:25000 1:10000 1:5000)

HY/T 0352-2023 - Technology requirement for submarine topography and geomorphology investigation of single beam echo sounding

HY/T 0351-2023 - Technology requirement of navigation and positioning for submarine topography and geomorphology investigation

HY/T 0350-2023 - Technical requirement for terrain and topography integration survey of land-ocean transitional zone

5 Classification and status

International classification (ICS): 07.060

Chinese Standard Classification (CCS): A 45

Prefix HY/T: recommended standard.
