1 Foreword

HY/T 0365-2023 was issued by Ministry of Natural Resources of the People's Republic of China on 11 July 2023 and has been in force since 1 September 2023.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 25 pages in English translation.

2 Scope Preview

This document establishes the management system of ocean observation, ocean special projects, ocean scientific research, international cooperation and exchange of ocean data, and the marine environment and seabed the overall framework and storage specifications of the topography and landform, marine remote sensing information management system, and the marine comprehensive management results management system. This document is applicable to marine data storage, processing, sharing, exchange and marine information system construction.

HY/T 0365-2023 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1992 to 2025.
