6.2 Measurement standards and other equipment

1 Foreword

HY/T 0366-2023 was issued by Ministry of Natural Resources of the People's Republic of China on 11 July 2023 and has been in force since 1 September 2023.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This document establishes the classification and grading principles of marine data resources, gives the classification of marine data, and describes the corresponding grading methods. This document applies to marine data collection, processing, storage, exchange, and marine information system construction.

HY/T 0366-2023 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1992 to 2025.
