1 Foreword

HY/T 102-2007 was issued by State Oceanic Administration on 19 December 2007.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 25 pages in English translation.

2 Scope Preview

This standard specifies the testing items, standard instruments and equipment used for testing of Acoustic Doppler Velocity Profiler (hereinafter referred to as ADCP) Conditions, testing methods and requirements for testing report writing. This standard applies to the detection of ADCP.

HY/T 102-2007 is filed under Chinese Standard Classification N 92, in the field of instruments and meters.

This catalogue holds 43 other HY/T standards without an ICS number.

In this catalogue, HY/T standards carry edition years from 1992 to 2025.

3 About this standard

Issued by: State Oceanic Administration

English translation: about 25 pages

Chinese original: about 30,372 characters
