1 Foreword

HY/T 123-2009 was issued by State Oceanic Administration on 23 March 2009 and has been in force since 1 May 2009.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the classification principles used in sea areas and the division of classification systems. This standard is applicable to the acquisition, registration, issuance of licenses for the use of sea areas, the collection of sea area use fees, law enforcement supervision of sea area use, and maritime registration investigations and unifications. The definition of the types of sea areas and the ways in which sea areas are used is defined in such work as planning analysis, sea area use demonstration, sea area assessment, and sea area management information system construction.

HY/T 123-2009 falls under ICS 07.060; 35.040, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1992 to 2025.
