Table of Contents

[Preview only]
1 Scope
2 Technical terms for salt production from sea water and brine
2.1 Terms
3 Technical terms for extracting potassium from seawater and brine
4 Technical terms for bromine extraction from seawater and brine
4.1 General requirements
5 Technical terms for making nitrate from sea water and brine
6 Technical terms for extracting magnesium from seawater and brine
6.1 Environmental conditions
6.2 Measurement standards and other equipment
7 Technical terms for iodine extraction from sea water and brine
7.1 Calibration Items
7.2 Calibration method
8 Technical terms for lithium extraction from seawater and brine
9 Technical terms for uranium extraction from sea water and brine

1 Foreword

HY/T 203.4-2016 was issued by State Oceanic Administration on 5 May 2016 and has been in force since 1 August 2016.

It is one of 4 parts of the HY/T 203 series.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This part specifies the professional terms involved in the extraction technology of seawater chemical resources and the deep processing technology of related products. This part is applicable to production, scientific research and related standard formulation, standard revision, books and related technologies in the comprehensive utilization of seawater chemical resources document writing, etc.

HY/T 203.4-2016 falls under ICS 07.060; 13.060, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1991 to 2025.

3 About this standard

Issued by: State Oceanic Administration

English translation: about 25 pages

Chinese original: about 35,392 characters

4 Related standards

Other parts of this standard:

HY/T 203.1-2016 - Terms of seawater utilization. Part 1: Seawater cooling technology

HY/T 203.2-2016 - Terms of seawater utilization. Part 2: Seawater desalination technology

HY/T 203.3-2016 - Terms of seawater utilization. Part3-Domestic seawater technology

Standards on related subjects:

GB/T 33584.3-2017 - Seawater quality requirements and analysis methods for seawater cooling system-Part 3: Determination of chloride

GB/T 33584.2-2017 - Seawater quality requirements and analysis methods for seawater cooling system-Part 2: Determination of zinc

GB 18420.1-2009 - Biological toxicity for pollutants from marine petroleum exploration and exploitation - Part 1: Grading

5 Classification and status

International classification (ICS): 07.060; 13.060

Chinese Standard Classification (CCS): Z 17

Prefix HY/T: recommended standard.
