## 1 Foreword

HY/T 204-2016 was issued by State Oceanic Administration on 9 November 2016 and has been in force since 1 February 2017.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

## 2 Scope Preview

This standard specifies the principles, methods and technical requirements for the collection, storage and transportation of crude oil samples in the construction of offshore oil exploration and development. This standard applies to the collection, preservation and transportation of crude oil samples from the offshore oil platforms in the waters of the People Republic of China, including the water, territorial waters, adjacent zones, exclusive economic zones, continental shelves and other sea areas under the jurisdiction of the People Republic of China The

HY/T 204-2016 falls under ICS 07.060; 13.020, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1991 to 2025.

## 4 About this standard

Issued by: State Oceanic Administration

English translation: about 7 pages

Chinese original: about 10,145 characters

## 5 Related standards

Standards on related subjects:

HJ 91.1-2019 - Technical specifications for wastewater monitoring

HJ 644-2013 - Ambient air - Determination of volatile organic compounds - Sorbent adsorption and thermal desorption / gas chromatography mass spectrometry method

HJ/T 400-2007 - Determination of volatile organic compounds and carbonyl compounds in cabin vehicles

HY/T 0286-2020 - Guidelines for the microbial remediation of petroleum pollution on marine shorelines

HY/T 0283-2020 - Determination of cadmium in seawater - Atomic fluorescence spectrometry

HY/T 205-2016 - Technical specification for establishment of oil fingerprint database in marine petroleum exploration and development

## 6 Classification and status

International classification (ICS): 07.060; 13.020

Chinese Standard Classification (CCS): Z 10

Prefix HY/T: recommended standard.
