1 Foreword

HY/T 208-2016 was issued by State Oceanic Administration on 9 November 2016 and has been in force since 1 February 2017.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the product classification, requirements, test methods, inspection, marking, packaging, transportation and storage of multi-tube samplers. This standard applies to the design, production and testing of multi-tube samplers.

HY/T 208-2016 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1991 to 2025.
