1 Foreword

HY/T 226-2017 was issued by State Oceanic Administration on 20 July 2017 and has been in force since 1 November 2017.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 5 pages in English translation.

2 Scope Preview

This standard specifies the general requirements, design requirements, and testing and inspection requirements for operating tools carried by manned submersibles for marine applications. This standard applies to operating tools carried by manned submersibles for maritime applications.

HY/T 226-2017 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1992 to 2025.

3 About this standard

Issued by: State Oceanic Administration

English translation: about 5 pages

Chinese original: about 7,714 characters
