What this standard covers

This standard specifies the method, method of sample storage, operation steps and calculation of results for the determination of HBCD in seawater by high performance liquid chromatography-tandem mass spectrometry. This standard applies to the determination of ??-HBCD, ??-HBCD and ??-HBCD in ocean, offshore, nearshore and estuarine seawater.

Document data

International classification (ICS): 07.060.

Chinese classification (CCS): A45.

Estimated length of the Chinese original: 10,142 words.
