1 Foreword

HY/T 270-2018 was issued by Ministry of Natural Resources of the People's Republic of China on 17 September 2018 and has been in force since 1 December 2018.

The HY/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 7 pages in English translation.

2 Scope Preview

This standard specifies the testing items, testing equipment, testing procedures and testing reports of marine wind instruments (hereinafter referred to as "wind measuring instruments"). This standard is applicable to the detection of propeller wind gauges and two-dimensional ultrasonic wind gauges with wind speed measurement range from 0m/s to 75m/s. The detection of the wind sensor can also refer to this standard.

HY/T 270-2018 falls under ICS 07.060, in the field of natural and applied sciences.

This catalogue holds 287 other HY/T standards in that field.

In this catalogue, HY/T standards carry edition years from 1991 to 2025.
