What this standard covers

This standard specifies the type, model, basic parameters, and technical requirements of pipeline shielded electric pumps, describes the corresponding test methods, and specifies the inspection rules, marking, packaging, transportation, and storage. This standard applies to the manufacture of pipeline shielded electric pumps for pipeline systems with a pressure less than or equal to 1.6 MPa and a conveying medium temperature less than 105°C, containing clean water or liquids with similar physical and chemical properties to clean water.

Document data

International classification (ICS): 65.060.35.

Chinese classification (CCS): B91.

Supersedes the earlier edition JB/T 10483-2013.
