What this standard covers

This standard specifies the terms and definitions of single-stage double-suction centrifugal pumps, specifies the types and basic parameters and technical requirements, specifies the corresponding inspection and test methods, and specifies transportation and storage. This standard applies to the manufacture of general application centrifugal pumps defined in GB/T 5657-2013 and general purpose chemical process industrial pumps defined in GB/T 5656. This standard does not apply to BB1/BB2 single-stage double-suction centrifugal pumps defined in GB/T 3215.

Document data

International classification (ICS): 23.080.

Chinese classification (CCS): J71.

Supersedes the earlier edition JB/T 1050-2006.
