What this standard covers

This standard specifies the safety instructions, safe operation, and key parameters for electric spindles used in turning. It describes test methods and specifies inspection rules, packaging, and accompanying technical documentation requirements. This standard applies to the manufacture of electric spindles for turning with spindle end types A2-3 to A2-8.

Document data

International classification (ICS): 25.080.10.

Chinese classification (CCS): J52.

Supersedes the earlier edition JB/T 10801.3-2007.
