What this standard covers

This standard specifies the type, basic parameters, and technical requirements of track-mounted diamond bead saws used in stone quarrying, describes the corresponding test methods, and specifies inspection rules, marking, packaging, transportation, and storage. This document applies to the manufacture of electric motor-driven track-mounted diamond bead saws with a cantilevered main motor support structure, and also to the manufacture of electric motor-driven track-mounted diamond bead saws with a fixed or gantry-type main motor support structure. The manufacture of internal combustion engine-driven track-mounted diamond bead saws should refer to this standard.

Document data

International classification (ICS): 73.100.30.

Chinese classification (CCS): D92.

Estimated length of the Chinese original: 11,187 words.

Supersedes the earlier edition JB/T 11114-2010.
