What this standard covers

This standard specifies the basic types, parameters, type codes, and technical requirements for dry gas seals. It describes the corresponding test methods and specifies inspection rules, instruments, installation, use, marking, packaging, transportation, and storage. This document applies to the manufacture of dry gas seals for rotating machinery such as centrifugal compressors, single-shaft or multi-shaft gear compressors, expanders, screw compressors, and centrifugal pumps.

Document data

International classification (ICS): 21.14.

Chinese classification (CCS): J22.

Supersedes the earlier edition JB/T 11289-2012.
