### What this standard covers

This standard specifies the general requirements, accessories, tools, safety and hygiene, machining and assembly requirements for CNC multi-face cutting lathes, describes the corresponding test methods, and specifies the requirements for inspection items, packaging, and accompanying technical documents. This standard applies to the manufacture of CNC multi-face cutting lathes with spindle output shaft drive, universal joint drive shaft drive, and CNC axis combined drive systems with a maximum bar stock diameter up to 50mm.

### Document data

International classification (ICS): 25.040.20.

Chinese classification (CCS): J53.

Supersedes the earlier edition JB/T 11576.3-2013.
