What this standard covers

This standard specifies the terms and definitions of alternator rectifier diodes for agricultural and forestry tractors and machinery, stipulates models and technical requirements, describes corresponding test methods, and specifies inspection rules, marking, packaging and storage. This standard is applicable to the manufacture of main rectifier diodes for agricultural and forestry tractors and machinery alternators with rated forward average currents of 15A, 20A, 25A, 30A, 35A, 40A, 50A, 60A, 70A and 80A, engineering machinery, ships and Other similar mechanical alternator rectifier diodes can be used as a reference.

Document data

International classification (ICS): 65.060.10.

Chinese classification (CCS): T68.

Estimated length of the Chinese original: 18,135 words.
