What this standard covers

This standard specifies the classification and technical requirements for reflective and transmissive projection hard screens. This document describes the corresponding test methods and specifies the inspection rules, marking, packaging, transportation, and storage. This document applies to the manufacture of planar reflective projection hard screens, curved reflective projection hard screens, annular reflective projection hard screens, diffuse transmission projection hard screens, and ordinary gain transmission projection hard screens. This document does not apply to spherical reflective projection hard screens, curved surface reflective projection hard screens, structural reflective and transmission projection hard screens, or other special-purpose hard screens.

Document data

International classification (ICS): 37.060.10.

Chinese classification (CCS): N42.

Supersedes the earlier edition JB/T 12587-2016, JB/T 12588-2016.
