1 Foreword

JB/T 14051-2025 was issued by Ministry of Industry and Information Technology on 2 July 2025 and has been in force since 1 February 2026.

The JB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This standard specifies the product composition, classification, and technical requirements of modular DC uninterruptible power supply systems, describes the corresponding test methods, and specifies inspection rules, marking, packaging, transportation, and storage. This standard applies to the manufacture of modular DC uninterruptible power supply systems that supply power to equipment with a rated input DC voltage of 200V to 400V.

JB/T 14051-2025 falls under ICS 29.200, in the field of electrical engineering.

This catalogue holds 619 other JB/T standards in that field.

In this catalogue, JB/T standards carry edition years from 1967 to 2026.

3 About this standard

Sector: Mechanical & Machinery Industry Standard (Recommended)

Issued by: Ministry of Industry and Information Technology

English translation: about 15 pages (approximate)

4 Related standards

Standards on related subjects:

JB/T 11140-2011 - General requirements for lithium iron phosphate battery modules

JB/T 11141-2011 - General requirements for lithium-ion battery module cases

GB 7260.1-2008 - [GB/T 7260.1-2008] Uninterruptible power systems (UPS) -- Part 1-1: General and safety requirements for UPS used in operator access areas

JB/T 14936-2025 - Low-voltage static switching device

JB/T 14050-2025 - Modularized AC Uninterruptable Power Supply System

JB/T 14405-2023 - Flywheel energy storage device for green data center

5 Classification and status

International classification (ICS): 29.200

Chinese Standard Classification (CCS): K 85

Prefix JB/T: recommended standard.
