What this standard covers

This standard stipulates the type classification, basic parameters and main dimensions, technical requirements, test methods, inspection rules, signs, packaging and storage of metallurgical heavy-duty diaphragm couplings. This standard applies to the manufacture of heavy-duty diaphragm couplings with certain compensation for relative offset of two axes and vibration damping performance.

Document data

International classification (ICS): 21.120.20.

Chinese classification (CCS): J19.

Estimated length of the Chinese original: 18,148 words.
