What this standard covers

This standard specifies the energy efficiency grade, energy efficiency limit value, energy saving evaluation value, test method, inspection rules and energy efficiency grade identification of non-clogging pumps. This standard is applicable to the energy efficiency classification activities of non-clogging pumps transporting industrial wastewater, urban and rural domestic sewage and other similar liquids containing solid suspended matter such as solid particles and fibers.

Document data

International classification (ICS): 65.060.35.

Chinese classification (CCS): B91.

Estimated length of the Chinese original: 7,752 words.
