What this standard covers

This standard specifies the energy efficiency grade, energy efficiency limit value, energy saving evaluation value, test method, inspection rules and energy efficiency grade labeling of horticultural electric pumps. This standard is applicable to the energy efficiency classification activities of horticultural electric pumps that transport clean water with a temperature not greater than 35°C or with physical and chemical properties similar to clean water.

Document data

International classification (ICS): 65.060.35.

Chinese classification (CCS): B91.

Estimated length of the Chinese original: 7,758 words.
